THE KRIYA YOGA

Of Babaji and Lahiri Mahasaya

"Understanding of 'I' is the undoing of 'I' and the unfolding of Intelligence (Chaitanya). This is a timeless spring. This freedom from time is the greatest intelligence."

"Mind thrives through problems and pursuits. It attempts to convert every situation into a problem for its perpetuation. Samadhi is a state of no-problem and no-pursuit. It is a state of no-mind, the highest intelligence and perception."

"Surrender is not a result of intellectual activity. Surrender is emptying without an emptier, the emptying of mental pollutions for the filling of the Universal Intelligence. Like a vacuum chamber being flooded with air when opened, the no-mind state of surrender is an immediate invitation to the Universal Intelligence to enter, which it does by Grace."

"Lahiri Mahasaya did not visit this planet to keep you amused in poor and paralyzing consolations but to break the mental prison. Understand and practice Kriya Yoga, you are bound to understand that which Lao Tzu and Lahiri Mahasaya found in Laya (no-mind)."

"Guru is a process and an energy that dispels darkness of the mind. He is not a personality, not a perversion of pride and pretensions. See the truth taught by the Guru process. Ignore the rest (personality)."

"Observer experiences, observation does not. Direct perception, not borrowed knowledge, frees you from authority."
