

## MISCHIEF MAKER – SOMIYA ACHARYA

How mysterious are the ways of the Universal Intelligence!

Our beloved Guru who lives in the dimension of emptiness had been tested once before with excruciating physical pain in the form of sciatica. Those who have seen him during those days cannot forget the wonder of witnessing his calm face while from his body poured words from that otherness. There was no sufferer anywhere. Finally, by Grace and dedicated care everywhere in all possible ways, the pain went away. He is all well again.

But then for some years now Universal Intelligence has again decided to play with him and tease him. This time by bringing him the sorrow of being uncle to a person so depraved that his very birth to a father married to Gururji's sister (and thus linked to the Lahiri family) is itself a joke by the greatest of humorists – the Universal Intelligence, Krishna. This person, Somiya Acharya, is projecting himself as a Guru, a Professor and other things. Perhaps Krishna himself will supply his "chakra" – the discus – or Vishnu his "gada" – the mace to take care of this charlatan.

Given below is the translation of a propaganda by his current companion (he has *had* two before; his legally wedded wife from whom he has a fourteen year old daughter, now abandoned along with her mother), his first bigamous 'wife' from whom also he has a daughter and now this second bigamous Russian 'wife'. The propaganda projects Somiya as a Professor of Mathematics and a great Yogi.

Below the translation of the propaganda from Russian to English, is the expression of Gururji's deep anguish.

This is being posted on the page "Antiques of Lahiri Mahashaya" as this page first came into existence to thwart the schemes of this scoundrel who was trying to sell the antiques for personal political and financial gain and it is hence perhaps appropriate to place this too here.

### **Publicity for Somiya Acharya in Russian publication:**

#### **Somiya Acharya, a famous yogi has come to Kabardino-Balkariya**

11.11.2014 - 11:04 Society. Viewed: 240

Somiya Acharya - the great grandson of Lahiri Mahasaya, who was a propagandist of yogic teaching and is famous in India as well as in the West, has now come to Kabardino-Balkariya from Varanasi.

He is not only a professor of mathematics who is lecturing in various universities in India but also he is a yoga practitioner. Major teaching which he uses for mind and body development is kriya yoga which is being passed on from father to son in his family.

As it was found out by a reporter from Russian Information Agency "Kabardino-Balkariya", kriya yoga is a subtle universal instrument thanks to which evolution of concrete human being can be accelerated. Paramhansa Yogananda, the philosopher wrote in his book "Autobiography of Yogi": "By his own reasonable effort, within three years, Kriya yogi can reach the same result which nature grants only in million years". The book can be obtained in the bookshops of Nalchik.

Paramhansa Yogananda was the first Indian master who taught this ancient science in the West where he stayed most part of his life. The science of self-realization, which helps to open and realize full human potential that is how he called kriya yoga.

Kriya yoga got a new blooming in the past century thanks to Lahiri Mahashaya who got initiated by a legendary teacher Babaji in 1861. Somiya Acharya is one of the two family members of Lahiri Mahashaya who can provide not only a general yogic knowledge, but also specific knowledge which is relevant to concrete person only. As in medicine, there is a general knowledge helpful for everyone but there is also knowledge which is needed for a specific patient.

There is no organization, no institution, no sect, no cult around this yoga teaching which was integrated for the West by Lahiri Mahashaya. Professor Acharya says: "Can there be a sect around, for example, mathematic teaching? No, there cannot be. Mathematics is truth which equally belongs to all humanity. Anyone wishing to have good health and strong nervous system can join yoga. What is needed is only a desire. Yoga has a wide spread in Russia nowadays. Singers and artists are practicing yoga in order to look good. Perhaps, there are also people in Kabardino-Balkariya who are interested in healthy living and I want to help them to understand correctly the teaching of yoga.

Professor Somiya Acharya is staying with his friends in the city of Mayskiy.

Those who are interested to talk to him can call on this phone xxxxxxxx or write to the following address [yyyy@zzz](mailto:yyyy@zzz) (Ludmila)

### **Guruji's words of sorrow on seeing the above:**

It is unfortunate that a Russian lady named Ludmila Sheltik of dubious background and character is promoting a criminal called Somiya Acharya under the banner of a "famous Yogi" in some gullible areas of Russia. The facts are as follows:

- 1) He is not great grandson of Lahiri Mahasaya. His mother Pratima Lahiri (who became Pratima Acharya after getting married to Debabrata Acharya) is one of the many great-grand-daughters of Lahiri Mahasaya. "Acharya" here is the surname or family name, just like "Lahiri". Teachers are usually called acharyas as the dictionary meaning of the sanskrit word 'acharya' is 'teacher'. But here, 'Acharya' indicates merely the family surname and this family or clan had nothing to do with Lahiri tradition. Somiya is the son of Debabrata Acharya who had died in a heart attack as he could not withstand the horrible activities of Somiya after he failed in College & University examinations.
- 2) Somiya is only school-educated and he had confessed this in his Facebook identity wherein he mentioned that his education is limited to U.P. Board (Allahabad) which conducts school-leaving examinations in the Indian State of UP (Uttar Pradesh). To tell that Somiya is Professor of Mathematics lecturing in various Universities in India --- is the height and depth of lies which a dubious character like Ludmila can only indulge in. She became member of an American controversial "Spiritual" set-up which was driven out from USA and subsequently from Italy and thereafter this set-up established its centres in India. Afterwards she found Somiya and "married" him. Thus she too flaunts her surname as "Acharya". Somiya was married long ago and has a 14 year-old daughter. He later abandoned his wife to sire a bastard through a south Indian woman --- much older than his age. Thereafter, another disastrous racket of his, was exposed by Human Rights Commission of India and he narrowly escaped being convicted and sent to prison.
- 3) Somiya stole five antique diaries from his maternal uncle's house for a very cunning motive and conspiratorial activities. The whole fact is available for perusal in the website: [www.kriyayogalahiri.com](http://www.kriyayogalahiri.com) on the page "Antiques of Lahiri Mahashaya". There is no question of Somiya having any authentic understanding and practice of any yoga, leave alone the ancient Kriya Yoga of Sage Patanjali, which was lost long ago, but was revealed miraculously to Lahiri Mahasaya in Himalayas, approximately one hundred fifty years ago.

Somiya is staying with his wife (illegal) at present somewhere in Russia to spread mental pollution in the name of "Yoga".
