Jai Shri Krishna

Let us consider the following reports from experts who are not merely ‘intellectuals’, but also blessed with an “**Insight**” born out of deep energy of direct understanding and Love for Life.

“The problem of obesity, undernutrition and climate change will worsen in future”. “Junk food consumptions are increasing by leaps and bounds. A fizzy drink giant intends to invest more than \$10 billion to promote growth in India and China alone.”

Is it possible to boldly confront the problems of society generated by the **separative psyche** called “**I**”, by the **divisive consciousness** called “**mind**”, which prevent **the fire of Awareness** rising high in the emptiness to vanish in the omniscience-omnipresence-omnipotence of the **otherness**? “**I**” or “**mind**” may then function as a reference point for performing practical tasks with enormous precision.

The fire burns conditionings, breaks the chain of cause and effect, and blasts the mental prison with the **Divine-Dynamite**. All organized divisions under the banner of “religions” or “nationality” or “race” or “language” or any other pretext — are then ended absolutely and unconditionally. Then each one of us is like the rest of humanity. Then our daily life is available automatically to a deeply meditative quality. This may give rise to a **new insight** for humans’ quest for **Truth — Krishna and the Divine Melody — Bhagawat Gita — Timeless and Universal**. To be aware of everything that is happening around us — is **the profound prayer**! This prayer sweeps away the cobwebs of selfishness, of revenge, of all the accumulated stupidities of ‘I’, ‘I’, ‘I’ and ‘you’, ‘you’, ‘you’ !

Jai Yadunandan ; Krishna ; Janardana ; Keshava ; Poorna-Avatara !
