Professor Reza Aslan - Well-known scholar and creative writer - author of several outstanding books — The book entitled ‘Global Jihadism’ — its synopsis now is presented for contemplation.

Muslim community is spread all over the world — some of them are successful democracies such as Indonesia, Malaysia, Senegal, Morocco, Egypt and Bangladesh. Let an individual Muslim know that he/she belongs to a particular religious community, called as Muslim (Sunni, Shia, Ismaili or Ispahani, Khoja, Ahmedia, Bohra, Wahabullah & other sects) just as information — not as psychological investment of the separative psyche ‘I’. Then he/she belongs to ‘Is’-ness, the whole humanity, as also to all Life and Divinity in astonishing forms and varieties. Muslims thus can inspire others, such as Christians, Jews, Hindus, Buddhists, Chinese, Capitalists, communists and many other sects and cults (along with their jejune jargons), not to be available to divisive consciousness and its mischiefs and manoeuvres.

Jihadism, inspite of its sensational, self-sacrificial and shocking aspects, must be stopped. Let energy of **Understanding and Love** emerge in Muslim community. Let nasty terrorism under the banner of Jihadism be stopped totally.

Jai Muslims in energy of Understanding
