The Light of Silence.

1. That **Silence** demands a great **Understanding of Life, not conceptual mental undertaking about Life collected from ‘religious-spiritual’ books.**
2. For that, the way you live matters **immensely** — what you eat, drink, everything becomes **immensely** important.
3. As long as you are a slave to society, as long as you are **greedy, envious, ambitious, pursuing pleasure, prestige, seeking status through functions,** unless you are **free from all that, there cannot be any sanctity of Silence.**
4. In the **Light of Silence, all problems disappear.**
5. **That Silence has its own operation on Society.**
6. Is it possible to function in this world, with that **Sense of Silence** ?
7. You will know **Love**, when **the mind, the myth, is very still.**
8. **Freedom from conditioning, comes from Stillness, i.e. that Silence .**
9. When you cultivate or **practice Silence, you run into more noise.**
10. Religion is a state of **Silent Awareness** from moment to moment, **without continuity. Silence that has continuity is fake.**
