

Message 447

Paris 28 May, 2022

Gopiji's and Kamakhyaji's attentions were drawn to the following news-item and they were requested to write two messages (447 & 448) in this regard. 25 May 2022 "A 18 year-old gunman killed (at least) 19 childrens and 3 adults (his grandmother, one of the teachers and one school-worker) in Uvalade's (Texas) Robb Elementary school".

This mass shooting comes after 10 days - when a white man killed ten blacks at a super Market.

Of late, there have been 900 incidents of gunfire on school grounds.

Gopiji's Message

It is perhaps a coincidence that this very incident gave rise to Swadhyay today in this body.

I am not writing this in Message form here, but the Swadhyay that happened is this:

"As the material form of the Universal Energy "evolves" the ego in it, the Separativeness from Life, increases. The so-called lowest form - the planets, the stars, the mountains, rivers and valleys have negligible ego. The Plants that grow, the grass, trees, etc have some as has been proven by J. C. Bose and others through scientific experiments. Progressively, from single cellular creatures to apes, separative consciousness continues to increase in the being and build a gap between Life and the being.

In the human being it reaches the depths of depravity. Separativeness is complete and almost all pervasive in this species. Mind and mindless-ness are seen everywhere, No-mind in a handful of people only.

Violence arising from mindless-ness by humans against fellow humans was exemplified, underlined today in bold dark hurtful lines when an 18 year old human being killed his grandmother first and then 23 other humans aged 8 or 9.

And yet, it is only the human with his erect spine and central nervous system that is capable of shedding all separativeness and being in complete harmony with Life through the Kriya process.

The process, working through the Guru, Shibendu Lahiri and his many disciples in all corners of this world is a ray of hope. May the Kriya Energy work through all Kriyabans everywhere and restore sanity in humans.
