Virtue has veracity, no Authority.

Let 'Mind-I' be free from Authority, which implies freedom from fear ; so that it is no longer capable of following anybody. This puts an end to imitation which becomes too mechanical.

Social morality is immoral !!! It promotes competition, greed, ambition, anger, egotism, infatuation, jealousy etc. etc.

Humility is not to be cultivated. Indeed, it cannot be cultivated. Without humility learning is not possible.

Love and virtue are not mechanical and thus cannot be cultivated either.

Without virtue there is no foundation for clear thinking.

Teacher and the student are friends indeed, sharing Energy of Understanding and Love.

Jai virtue - Veracity
