### **Anonymous Creativity**

We want to be famous, as a writer, as a poet, as a painter, as a politician, as a singer, etc. etc. Why ?

Because we really don't love what we are doing ! If you loved to sing, or to paint, if you indeed loved it — you would not be bothered, whether you are famous or not !! To want to be famous is trivial, stupid ; but because we don't love what we are doing, we want to enrich ourselves with fame !!! We are encouraged to love success and not what we love to do.

It is good to be anonymous and not to show off. Your natural kindness does not make you famous. You are just a creative human being and living quietly in your natural state of freedom, life, love, joy and beauty. Die completely to the things of the mind and desires. And see if this is possible !!!!
