

MESSAGE 70

Eiffel Tower,
Paris, 15 August 2004
(Indian Independence day)

A short message without a title.

World offers only wanting and worrying as also wasting whole life in making arrangements for so-called living in terms of food, clothes, shelter and occasional pleasure with its great sorrows. It is not living, it is just languishing in the mental prison.

Wander away from this idiotic world and be an outsider without caring for the opinions and obsessions of the stupid society.

Then the wonder and the beauty of the heaven and the earth is constant without any contradiction and conceit of power, without any tension and tussle for ego-fulfilment encouraged by the world.

Only then love is benediction, not what you believe it to be in accordance with society's standard of barter deals.

In love or meditation, you are not even conscious of its extent and bliss. If you are deliberately conscious, you might just as well go and buy a romantic novel or a book on "Yoga" & "kundalini power" from the market place.

Time and thought have hardly any place in love and meditation. At that moment, ultimate is the immediate without any symbol whatsoever !

This ultimate is actually a destructive flash, not a tame affair. It blasts the mind with all its mania, malady, myth and mischief. It is a total shattering of the notoriety of the net-work of words & thought.

Just as you do not make love in public, you must not meditate in public. Never meditate in a group or with another, for God sake.

Meditate in solitude, in aloneness, not repeating words, not pursuing a thought nor shaping a thought according to your desire and sick conditioning.

Sit majestically like a lion in the jungle of joy !

Meditation and love is Mother Kâli which actually means ending of time. If meditation does not happen, do a lot of Lahiri Kriya Pranayam for the time being (or a lot of Lahiri Thokar Kriya, if you have come upon this stage in your kriya life).

Trust Lahiri Mahashay Phenomenon.

Om Mâ Kâli Om
